Blowpipes	12"	3			-				2 x Multipleshot				-			
NOTE: This group is the biggest and will close the trap from the opposite direction																

RULES AND ITEMS GLOSSARY

COLD BLOODED: For all Leadership tests, Lizardmen units roll 3 dice and choose the lowest 2 scores

SCALY SKIN 5+: Temple Guard, Saurus Oldbloods, Saurus Scar-Veterans, and Salamanders have a Scaly Skin Save of 5+

BLESSSED SPAWNING OF SOTEK, THE SERPENT GOD: When the unit/character charges, they get +1 Attack for that round of combat. Skink Priests can only take their spells from the Lore of Beasts.

AQUATIC: Skinks can move over marsh, rivers, lakes, or any other water features without penalty, and will benefit from soft cover while in such terrain.

SECOND SIGN OF AMUL : Cast on 6+
This spell can be cast by a Wizard and gives the player a chance of re-rolling dice during the remainder of his own turn.
If successfully cast, roll a D3 to determine the number of re-rolls the player can make. Each re-roll entitles the player to take any single D6 dice (including one of the dice rolled on a 2D6, 3D6, etc) he has rolled and roll it again. Any dice can be re-rolled but the player cannot re-roll a re-rolled dice… he only gets one chance to overcome a duff roll! Any re-rolls not used by the end of the turn are wasted.

THE COMET OF CASANDORA (REVISED): Cast on 11+
This spell can be cast upon any fixed point on the tabletop. If successfully cast, place a suitable marker over the exact spot affected - a small coin is ideal for this.
Once cast, the player rolls a D6 at the start of each player's turn (ie, at the start of his turn and at the start of his opponent's turn). On a score of 1-3 nothing happens, but place another marker on the first. On the score of a 4-6 the spot is struck by a comet. All units from either side which are within D6" multiplied by the number of markers already placed are struck by the comet. Each unit struck by the comet takes 2D6 Strength 4 hits. For example - if there are two markers in place and the D6 roll is a 4, all units within 4 x 2 = 8" are struck. The Comet is not a remains in play
spell as such, although the spell can be dispelled while in play, (remove all markers), and a Wizard cannot have more than one Comet in play at one time.

PREDATORY FIGHTERS: Saurus Warriors are vicious fighters whose bodies and armament have been created to maximise their fighting potential in close combat. As well as their well-designed weapons, they make use of their bony crests, powerful jaws and claws. Even their shields are designed to strike and slash with, making them formidable opponents.
However, this instinctive and predatory fighting style works best at close range, so Saurus Warriors fighting with spears may only make a single attack rather than two, if they are positioned where they can attack in the second rank of fighting a foe to the unit's front.

SCALY SKIN 6+: Saurus Warriors and Cold One Riders have a Scaly Skin Save of 6+

SKIRMISH SCREEN: Both Skinks and Kroxigor are separate units and follow all the normal rules. In addition, Kroxigor may see and charge through Skink units (including Chameleon Skinks) that are not fleeing.
A Skink unit that has a unit of Kroxigors charge through them must take a leadership test. If this is failed, they may not voluntarily move that turn.
Enemy units charged by Kroxigor through a Skirmish screen may stand and shoot as normal. For the purposes of working out range and whether the unit can stand & shoot at all, measure the distance to the point from which the Kroxigor emerge (ie the front of the Skink unit).

SKIRMISHERS: Unit are skirmishers

POISONED ATTACKS: Poisoned Attacks. Hits of 6 auto wound. Sve as normal.
